PROFILE

Junior Full-Stack Developer with 4+ years of real-world experience building and delivering complete web platforms as a freelancer and agency founder.

Since 2024 I have been focused exclusively on programming (Python + Django + PostgreSQL + JavaScript), after successfully creating and managing dozens of client websites in WordPress and custom code.

Currently working full-time as Content Moderator, but 100% available and highly motivated to transition permanently into software development.

Looking for Junior → Mid-Level Full-Stack / Backend (Python) or WordPress Developer roles where I can contribute from day one and continue growing fast.

KEY PROJECTS & ACHIEVEMENTS

- Built and delivered 15+ complete web platforms for real clients (2021–present) using Python/Django + PostgreSQL + JavaScript + HTML/CSS
 - Created full custom WordPress websites (themes & plugins from scratch, WooCommerce integration, performance & SEO optimisation)
 - Founded and ran a successful digital marketing agency for 5 years – managed the entire technical side (website creation, landing pages, hosting & maintenance)
 - Self-taught developer who went from zero to building production-ready full-stack applications in under 4 years
 - Improved website loading speed for clients by 50–80% through code optimisation and modern practices
-

TECHNICAL SKILLS

- Languages & Frameworks: Python • Django • JavaScript (ES6+) • HTML5 • CSS3

- Databases: PostgreSQL
 - CMS: WordPress (custom themes & plugins from scratch) • WooCommerce
